STEALTH

Model:
AC100GPS

GPS TRACKING, FLEET MANAGEMENT & DRIVER COACHING

View the location of your vehicle or fleet of vehicles in real-time from your Smartphone or any connected device. Know exactly where family members or fleet drivers are and where they've been from anywhere at any time.

Replay where they've stopped, idled, entered or exited a specified landmark, or even breached an after-hours driving policy. Manage speeding, aggressive driving and ensure your vehicles are well maintained with service reminders.

COVERT INSTALL

Hardwired behind dash installation

BACKUP BATTERY

Worry-free battery disconnected operation

ACCELEROMETER

Detects aggressive driving and unwanted movement

LANDMARKS

Set virtual perimeters; be notified of entries and exits

HISTORY

Review driving history and see times and routes taken

ALERTS

Receive alerts via text or email for any activity
