

The True Blackbox (Motorcycle Camera)

CHANUN ACE

Reliable waterproof dual camera, WiFi connection with smart devices, Mobile APP. (Android, iOS), GPS

CHANUN Motorcycle Camera

Super clear HD front & rear camera system with waterproof and recorder (DVR) designed exclusively for Motorcycle use.

KEY FEATURES

Designed exclusively for Motorcycle use

Installed under the seat or behind a protected compartment housing area without exposing to direct sunlight and high temperature.

- Only compact external waterproof cameras are installed at front and back.

Super clear HD video quality

High quality HD CMOS sensor and video image compression technical chip

- Provide vivid and realistic image day and night through optimized ISP technology.

HD

WiFi Connection function

Connect Smart device and motorcycle camera with WiFi

- Enables to check real time view, recorded video and control motorcycle camera through Chanun mobile Application.

Excellent Video at 30 frames

Pristine video quality with Super clear HD (1280 x 720p) high resolution

- Record at 30fps without dropping a single frame.

Various recording mode

- Continuous record : Automatically starts recording when motorcycle starts up.
- Event record : Automatic event record upon an impact detection.
- Manual record : Record video and save the file into manual folder.

132° Wide Angle View

132° angle view for CHANUN ACE

- Provide with broad and enough angle to capture details of accident.

3 Axis G-Sensor

Sensitive motorcycle camera even for tiny impact

- CHANUN motorcycle camera detects even tiny impacts by 3 axis G-Sensor, and records video immediately.

High temperature protection function

High Temperature sensor automatically protects the system and saved data.

- Protect system and recorded video by stopping recording automatically when the motorcycle's internal temperature is over certain temperature.

Latest high sensitive GPS (Option)

Adopted high sensitive GPS which improved the location error and system error.

- Provide accurate driving data such as location, speed, time, direction.

Waterproof camera for extreme outdoor activity

CHANUN ACE with waterproof camera lens captures your adventures when riding in heavy rain, storms, and heavy winds. No worrying about water getting inside or damaged.

Smart phone Viewer

With Chanun mobile application, you can access to the recorded videos.

- * Mobile Application requirements :
Android 4.0 or higher, iPhone 5 or higher.

CHANUN PC Viewer Video program (for PC)

Simply replay the recorded video on computer through CHANUN PC viewer.
