

## DASH CAM QA100 ELITE

The all-new Thinkware QA100 ELITE is the perfect harmony between design and performance. Encased in an industry award-winning design lies a new optical lens and an improved 5.14MP Sony STARVIS image sensor that delivers strikingly clear video quality in 2K QHD. Its advanced driver assistance system can warn you of potential forward collisions and lane departures along with alerts for red light cameras and speed cameras.

### QHD

With the Premium 1440p Sony Exmor STARVIS, you get all the details you need.

### Wi-Fi with Mobile Viewer

Stream and download recordings to your mobile device while connected to the dash cam via Wi-Fi.

### Smart File Management

Automatically organizes and stores video files based on the type of recorded incident for easy file location spotting.

### Integrated Thermal Protection

Integrated Super Capacitor and Thermal Sensor enhance reliability in extreme temperatures.

### Anti-File Corruption

Proprietary file management system eliminates data corruption and improves the reliability of the memory card.

### Road Safety Warnings

Lane Departure and Forward Collision Warning Systems lower the risk of accidents by warning the driver of impending road hazards.

### Safety Camera Alert

The GPS antenna tracks the road and direction of travel to notify the driver of photo enforced areas for safe driving.

### Parking Surveillance \*

With hardwiring installation, it employs a combination of motion and impact detection to protect the vehicle from hit-and-runs.

### Rear View Camera \*

Record events behind your vehicle with the optional 1080p rear camera for all-around protection.

\* Optional accessories required.
